

Scholarships for Master's degrees

The University of Leicester is a leading UK university committed to international excellence through world-changing research and inspirational teaching. The University was founded in 1921 and gained its Royal Charter in 1957.

Leicester is ranked in the Times Higher Education 2013 top 200 universities of the world. In university guides published by national newspapers, Leicester is in the top twenty of UK universities (14th in The Times and 13th in The Guardian).

The University occupies an attractive campus close to the centre of Leicester, a multicultural city of 300,000 people just 160km- or 70 minutes' train journey- from London. The cost of living is very reasonable compared to many other UK cities, and we estimate that £700-750 (€850-900) per month would cover living costs for a student lifestyle.

Santander Scholarships

We offer a minimum of thirteen scholarships for one-year, full-time, campus-based Master's programmes to students from Santander Universities' 11 network countries, which include Spain.

These awards, of up to GBP £5,000, will in most cases cover the majority of the tuition fee for students from Spain. Please check our Fees Pages (www.le.ac.uk/fees) for details of tuition costs for individual programmes.

It is important that you have enough funds to cover the full cost of your course and living expenses before you begin your studies.

Please see the [Santander Scholarships website](#) or email santanderawards@le.ac.uk for more information.
